

Organising and marking information

Microcontroller theory – laboratory

1. Maximal quantity of laboratory group is 14 Students.
2. One unjustified absence is acceptable.
3. Preparation to laboratory – on the basis of lectures, literature given by the lecturer and laboratory instructor and all the information given by the laboratory instructor during the exercises.
4. One unjustified unpreparation is acceptable upon notification during Students presence checking.
5. Every-meeting knowledge testing: questions concerning the information given by or detailed by the laboratory instructor.
6. Each laboratory exercise report is obligatory (unless the instructor states different) – the ultimate deadline is the date of the next laboratory exercise.
7. Student's activities and theoretical preparation for the exercises as well as properly and carefully written reports will be taken into account when marking.
8. Final colloquium as a programme consisting of all the described subject will be carried out in the end of the semester.
9. Upon the acceptance of the instructor, Student with positive mark can write (only once) an amendment colloquium – so achieved mark cancels automatically the previously obtained one.
10. Switch off the mobile phones, please!
11. Consultancy possibility: Tuesday, 11.00-12.00 hrs, Dept. of Process Control (Katedra Automatyzacji Procesów), room 15 (entrance via B-3, door no. 108a).
12. Contact data: e-mail pmartyn@agh.edu.pl, phone 012 617 44 13.
